Subject: Implementation of Aadhar-based Direct Benefit Transfer (DBT) for providing scholarship to the Scheduled Tribes students availing the Top Class Education Scheme – regarding –

Sir,

As you may be aware, a decision has been taken in the Government to roll out implementation of Aadhar based direct benefit transfer system (DBT) for providing cash benefits to the beneficiaries of identified schemes of the Government in 43 notified districts. Once the DBT program has been established in the 43 identified districts it would be rolled out in phases in all other part of the country. Hence, it is essential that all relevant issues are addressed in this phase of the rollout so that the next phase can be implemented more smoothly.

2. The scheme of Top Class Education for ST students is one of the schemes identified for roll out of Direct Benefit Transfer into the Aadhar seeded bank accounts of the beneficiaries. For this purpose, it would be essential that all beneficiaries of the scheme in your institute have bank accounts and Aadhar numbers and that their bank accounts are seeded with their Aadhar numbers. It would also be necessary to maintain a digitised list of beneficiaries (new as well as continuing) along with Aadhar seeded bank account number. In this connection, it is intimated that NIC has developed Web-based software for building up and maintaining beneficiary database for direct benefit transfer to the beneficiaries. This system is integrated with the CPSMS. Details of this software are available at http://dbtapp.gov.in.

3. It would be appreciated if all out efforts are made to ensure that Aadhar enrollment of all beneficiaries of the scheme of Top Class Education for ST Students in your institute is completed and it is ensured that all of them have Aadhar seeded bank accounts. The digitized beneficiary data may be maintained in the prescribed proforma and also shared with the Ministry of Tribal Affairs at the earliest.

Yours faithfully,

[(Roopak Chaudhuri)
Deputy Secretary to the Government of India
